

Date Stamp for TAT

TAT series is stamping applications for all kinds of industrial works. It achieves clear stamping on non-porous surfaces such as metal, plastic, cloth, leather, and glass.

Grip:

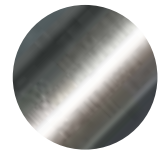

The grip surface is an elastomer material with a soft feel, so that using the stamp for a long time does not cause strain or discomfort.

Belt:

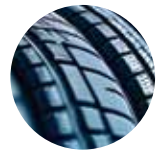

The belt is made of special rubber with outstanding oil resistance and durability. Belt surface does not slip easily on any material.

For various materials

Metal

Rubber

Wood

Plastic
